<b>DELIVERY COSTINGS</b>				
Free Delivery to Pretoria and JHB central areas on orders over R700.				R -
Orders under R700				R 100.00
Deliveries to others area's will be quoted separately to specified address.				TBQ
We do send to all major area's and can arrange to the not so central area's, at your cost				
<b>PACKAGING</b>				
Delivery in a cardboard box with bubble wrap and ice packs, same day or over night during lockdown.				R -
Polystyrene cooler with extra ice packs, please add 15% to your delivery fee.				15%
<b>COLD CHAIN MUST BE MAINTAINED</b>				
Bottles will expand and may explode if cold chain is lost for a few hours. The product will continue to ferment. It will still be beneficial and full of probiotics, but may be a challenge to open, as it will be very very bubbly. Numesa will not take responsibility for this and will not issue credits.				
In most same day deliveries, the cardboard box with ice packs is sufficient but at your risk. See note in above block for polystyrene cooler option. You will need to refrigerate once you receive it.				
Numesa Pty Ltd has been making kefir since 2015. We have a valid Food Acceptability certificate for Tshwane. We are busy with our Food Safety audit and follow a good food manufacturing program, obeying all food safety requirements. Our kefir is tested monthly at a SANAS laboratory. We use an artisanal manufacturing process to ensure our kefir stays as alive and probiotically diverse. Numesa ferment our kefir with LIVE kefir 'grains'. This sets us apart from most kefir producers and ensures probiotic diversity. We don't just make Kefir - we influence the gut microbiome of South African's in a positive way. Most of our feel good neurotransmitters are manufactured by the microbes in our gut.				
Healthy Tummy is a Happy Life. NuMeSa - changing South Africa for the better - one microbiome at a time.
